# Industry specific.

Prime means business when it comes to commercial metal buildings. We have extensive commercial and industrial building experience that includes manufacturing facilities, offices, warehouses, crane buildings, retail spaces, garages, and more. Our design approach is interactive and allows you to be involved throughout the entire project. We'll work with you to give you a design that is the most functional for your industry and allows maximum productivity for your business.

- **40 YEAR WARRANTY**  
on Sherwin Williams Coil Coatings Colored Panels
- **25 YEAR WARRANTY**  
on Acrylic Coated Galvalume Panels
- **IMPACT RESISTANT**

## Our Process

**Collaborate:** First, we listen and learn about your project and your vision. Then our team will assess your needs and make suggestions based on our experiences. We will work with you to make sure that you get the metal building you need.

**Design:** We use state-of-the-art technology to create preliminary drawings that you can use to visualize your new building.

**Estimate:** Our team of estimators will evaluate your project's design, timeline, and budget to provide you with a detailed quote. With our history of delivering both small and large projects on time and on budget, you can rest assured that we have taken every detail into consideration when formulating your quote.

**Commit:** Once an agreement has been reached, it's time to sign the paperwork and get started! We'll communicate key production and delivery dates, so you know exactly what to expect.

**Manufacture:** Our in-house production capabilities allow us to manufacture everything that goes into a metal building including primary framing, secondary framing, sheets, and trim.

**Support:** We're with you from start to finish, and we mean it. Once your building is delivered, we provide support throughout the entire erection process.
