

METAL BUILDING SOLUTIONS **RESIDENTIAL BUILDINGS**

IT'S PRIME TIME

When you need more than a metal building, you need Prime. Prime Metal Buildings & Components is the leading designer and supplier of innovative metal buildings.

WWW.PRIMEBLDG.COM

The comfort of home.

Metal homes are one of the fastest-growing housing trends in the nation. A major reason for their spike in popularity is the flexibility in layouts and features along with the option for open floor plans. Need a shop attached to your house? No problem! Want living space in your hangar? You got it! Can you attach the horse stalls to the house? Absolutely! The possibilities for your home are endless with a metal building from Prime. All Prime metal buildings are manufactured right here in the USA. No project is too big or too small for Prime!

Our Process

Collaborate: First, we listen and learn about your project and your vision. Then our team will assess your needs and make suggestions based on our experiences. We will work with you to make sure that you get the metal building you need.

Design: We use state-of-the-art technology to create preliminary drawings that you can use to visualize your new building.

Estimate: Our team of estimators will evaluate your project's design, timeline, and budget to provide you with a detailed quote. With our history of delivering both small and large projects on time and on budget, you can rest assured that we have taken every detail into consideration when formulating your quote.

Commit: Once an agreement has been reached, it's time to sign the paperwork and get started! We'll communicate key production and delivery dates, so you know exactly what to expect.

Manufacture: Our in-house production capabilities allow us to manufacture everything that goes into a metal building including primary framing, secondary framing, sheets, and trim.

Support: We're with you from start to finish, and we mean it. Once your building is delivered, we provide support throughout the entire erection process.
